Core Competencies

SunWize Power & Battery is a small business enterprise that designs and builds reliable, stand-alone industrial power solutions and electronic assemblies for integration into OEM products and off-grid field applications. With over 20 years of proven reliability

in extreme environments, our solar, battery, backup, and hybrid power systems. We also offer a broad spectrum of remote industrial power system components, such as electrical components, batteries, solar modules, enclosures, and solar

Products

- Solar electric power systems
- Uninterruptible power sources
- Battery back-up systems
- Wholesale system components
- DC and AC power conditioning systems
- Solar/Generator/Hybrid systems

Services

- Contract manufacturing
- Power system specification & design
- Engineering & consultation
- Solar module manufacturing
- Sheet metal

Past Performance

Our business focuses on working closely with our customers to understand power system requirements and provide high quality, comprehensive, reliable, and cost-effective power systems to meet customer needs. We are constantly evaluating our approach to ensure we are using industry-leading products and the highest standards when building our systems. We are committed to

Government

- National Park Service
- Department of Transportation
- Department of Defense
- Bureau of Land Management

Commercial

- Chevron
- Honeywell
- Verizon
- Emerson
- Lockheed

International

- ADCO
- Bearcom
- Unavco
- Burhani Engineers

Differentiators

Our real point of difference is the ability to collaborate with customers and partners to provide custom battery-based power solutions for remote locations, suited to meet very different application needs

- Close relationships with top-tier vendors for reliable components
- Experienced Project Managers & Engineering team
- Documented quality control manufacturing program with pre-shipment quality control testing of all manufactured power systems
- Fast design and manufacturing of high quality custom aluminum and steel battery and electronics enclosures
